# WORKSHOP ON 'INCLUSIVE EDUCATION'

A classroom is a place where a mistake is not to be feared but viewed as a learning experience. Inclusive education refers to the inclusion of all children in the education system, regardless of their differences and disabilities. It values the diversity each child brings to the classroom and facilitates the learning of all. Inclusive education has been included in NEP 2022, with CBSE recognizing 21 types of disabilities. Little Scholars Kashipur is the embodiment of the new era, and hence a workshop on inclusive education was conducted on February 22 and 23, 2024. Dr. Prashant Kumar conducted the workshop. The workshop started with the lamp-lighting ceremony of Maa Saraswati. The audience was enlightened about the indicators, roots, and master plan that should be followed to help these students. Positive reinforcements, functional communication training, and fading programs were some of the management techniques on which emphasis was placed. Dr. Prashant also illuminated the audience on 'how to teach the students with learning disabilities in the classroom' with different examples.

# HOLI CELEBRATION

Holi is one of the major festivals of India and is the most vibrant of all. The joys of Holi know no bound. The festival is filled with so much fun and frolic that the very mention of the word 'Holi' draws smiles and enthusiasm amongst the people. Holi is about bringing people together, and all differences such as class, gender, and race are forgotten. The festival signifies the victory of good over evil, the arrival of spring, a season of joy and hopes, and the end of the winter season. The tiny tots of the Pre Primary Wing at Little Scholars celebrate this festival with a lot of zeal too. Here's how we have a colourful time with our kids at our Holi Celebrations.
